Introducing

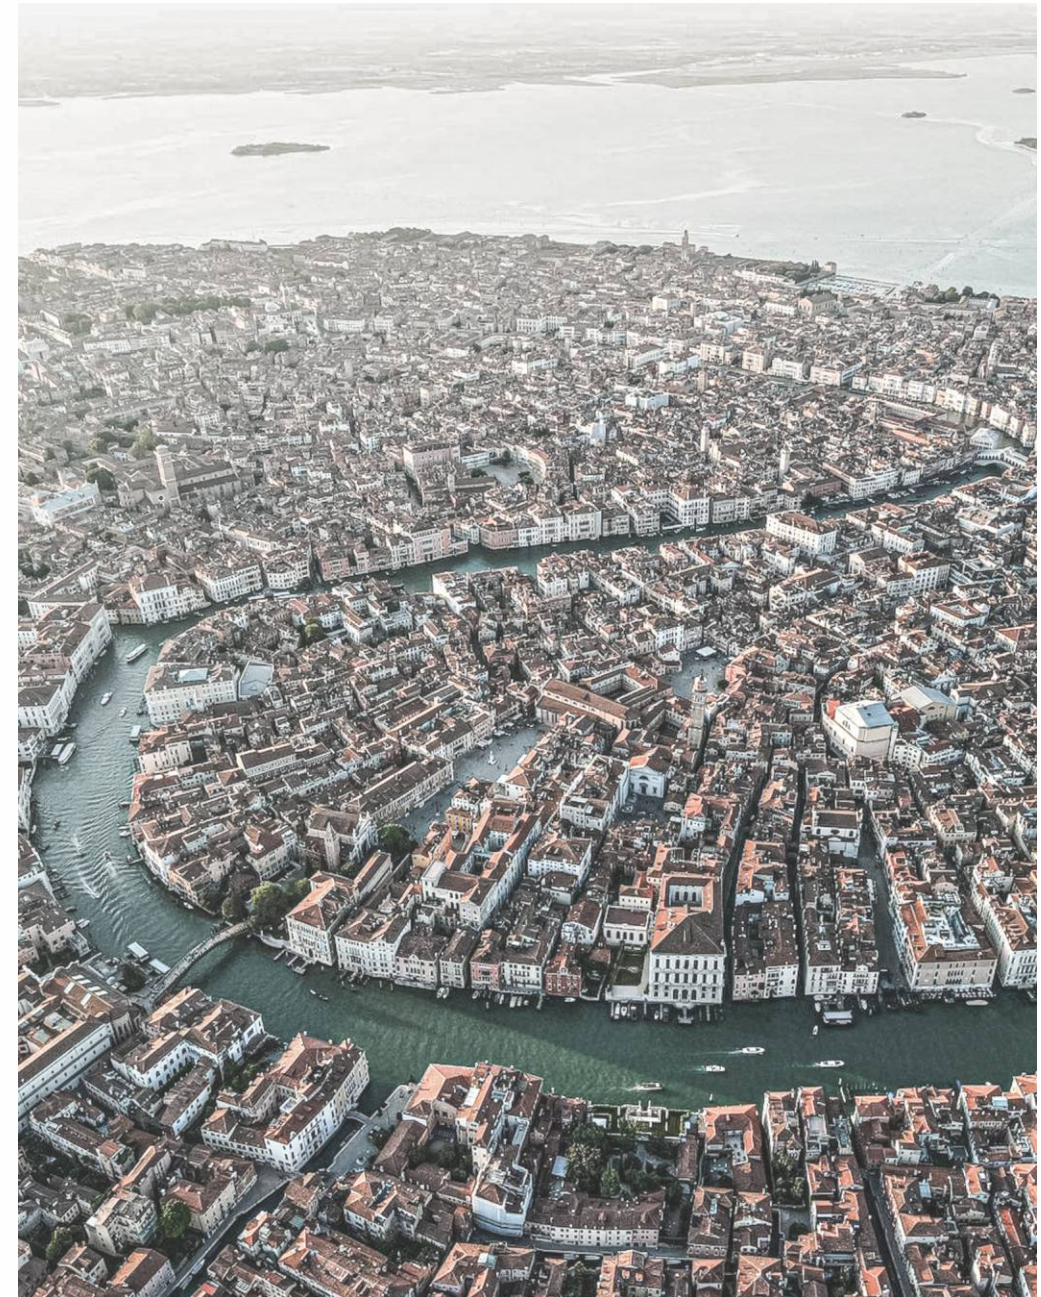

Venitto Collection

Timeless and Exceptional, Authenticity and Beauty.

The Venetian terrazzo has been celebrated for centuries as one of Italy's unique craft creations, adorning monuments in Italy's Veneto region and around the world with exceptional authenticity and beauty. Inspired by the same, the Venitto Collection's designs effortlessly achieve the timeless terrazzo effect without the hassle of lengthy installation.

This one-of-a-kind collection is created with material consistency and incorporates blended colored chips throughout instead of separate layers of glazes and prints. The amalgamation of colorful chips within the solid matter makes this homogeneous collection distinct and suitable for public space applications.

Rediscovering The New
Timeless

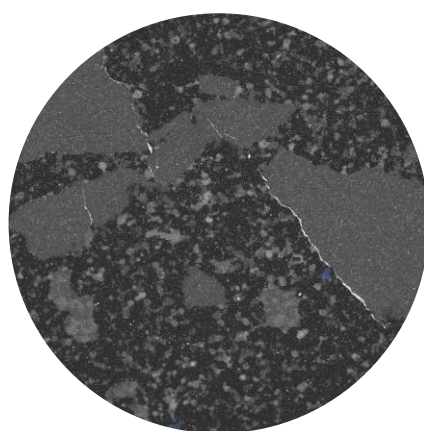

Surfaces 12

Surfaces to tailor your spaces to perfection

The Venitto Collection presents a harmonious blend of versatility and style with its distinctive Polished and Posh+ surfaces. Each surface is meticulously crafted to cater to different design preferences and functional needs—Polished is the timeless, luxurious surface, and Posh+ is the new generation and a step ahead in Posh surface innovation.

Posh+ is a breakthrough in surface innovation from the house of Simpolo. The successor to the highly successful and sought-after Posh surface, Posh+ is expertly curated for public spaces, offering unparalleled performance paired with unmatched beauty. The surface is designed to meet the demands of heavy traffic areas and resist the modern-day adversities of shared spaces.

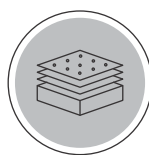

As we are inspired by the authentic aesthetics, the contrasting thin lines between homogenous colored flakes are there to increase the Venitto designs' beauty.

Posh+ Surface

The iconic Posh surface from the house of Simpolo achieves a new feat with Posh+. The infamous Posh surface, which is a perfect fit for any private space, gets its successor which is an ideal fit for public space applications.

10x Abrasive Strength

Posh+ surface is created with a unique surface abrasion resistance that is 10 times over the PEI-5 category, which is considered the highest standard for public place application.

R-9 Surface

POSH+ surface provides better slip resistance than conventional matt surfaces.

Stable & non-fading colour

Chemicals, UV rays & more don't affect the colour of the surface.

Scratch resistance

Resists scratches & scuffs efficiently caused due to daily use.

Easy to clean

Requires no extra effort to clean & routine cleaning is enough.

iM+ Technology

iM⁺

iM⁺ Technology, Towards A Better You

We have never been as pre cautious as we are now about our health and hygiene. We are battling every day to increase our immunity and keep ourselves fit. 'iM+' derives from the word 'immunity'. 'iM+ Technology' is our most exciting innovation yet. It helps the product surface repel any liquid. It does not allow unwanted and harmful living organisms to stay and/or grow. It requires the lowest maintenance efforts. We have and will always put in our efforts to keep your place better and safer.

Anti-Bacterial

Anti-Viral

Anti-microbial hygienic surface

The surface prevents microbial growth for enhanced hygiene.

Ultra-high heat resistance

Resists heat efficiently for use in kitchen & dining spaces.

Superior stain resistance

Resists stains & stays new-looking for longer.

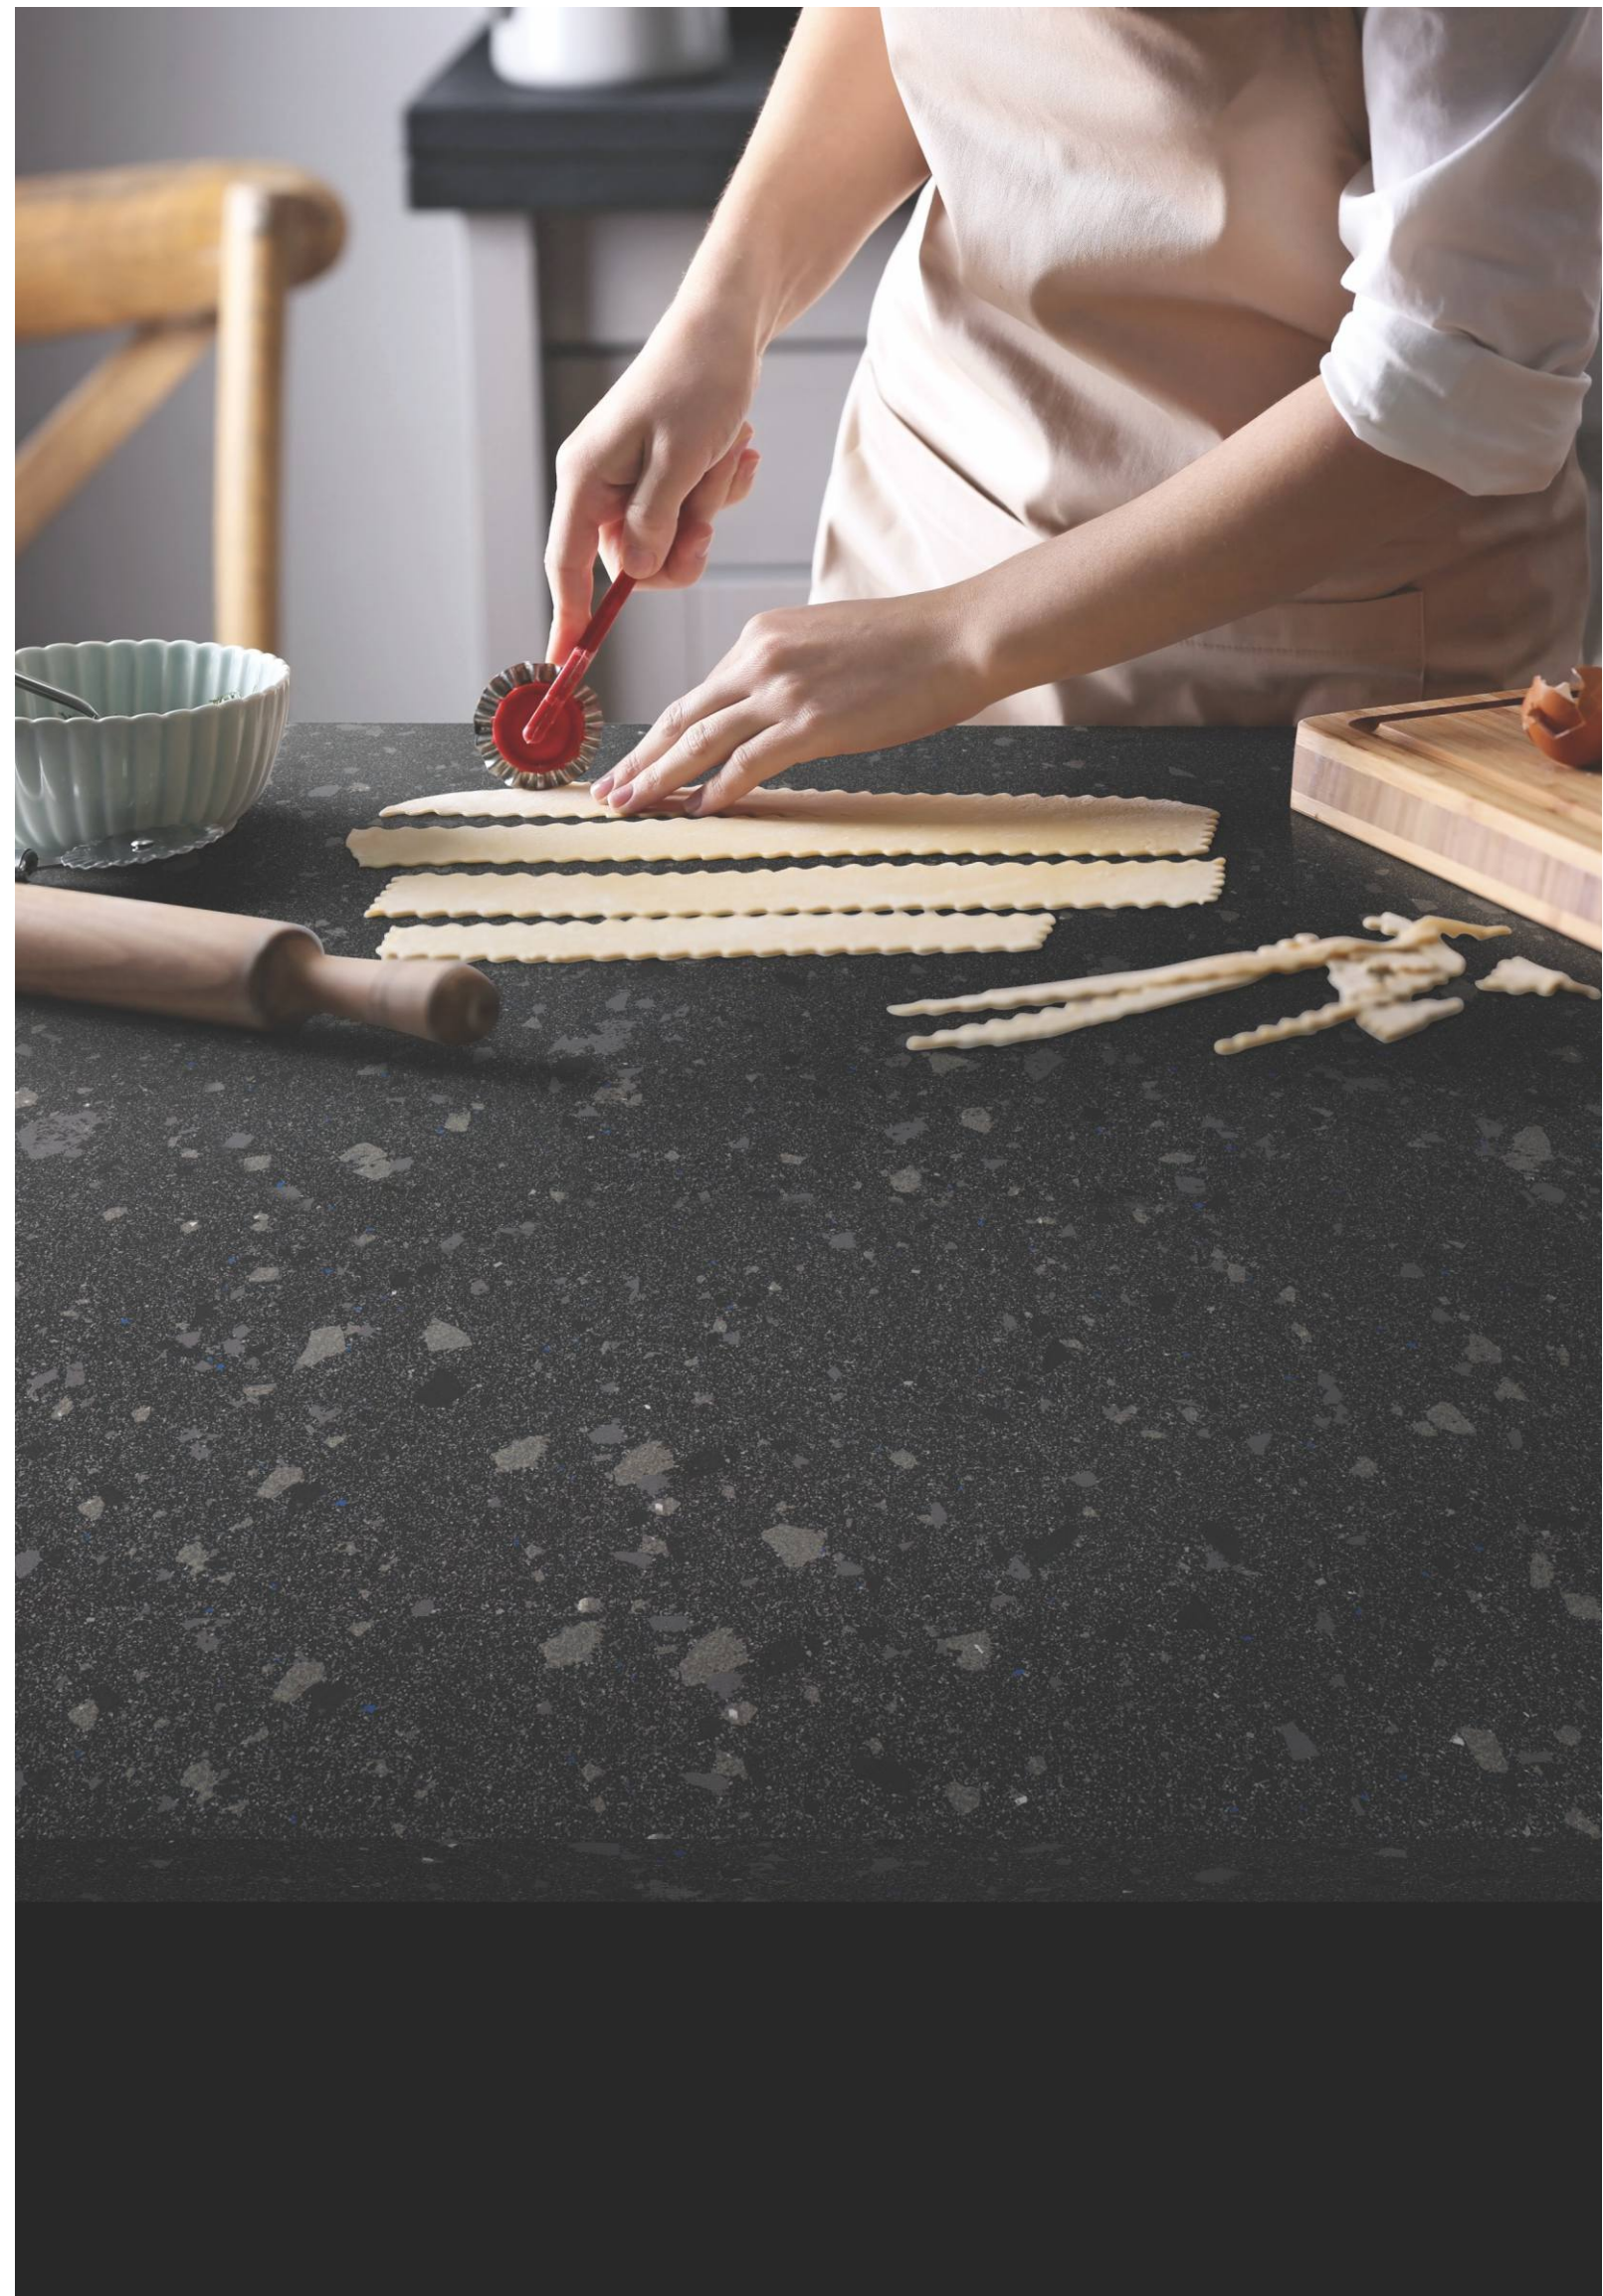

Extensive possibilities

Versatile & extensive format open doors to varied applications.

Resists UV rays

UV rays don't alter or damage the colour & form of the surfaces.
